Hello. My name is Sara. I am currently looking for a nanny position that would be 30-40 hours. I love working with children. I was a primary preschool teacher at a licensed daycare center for three years. I've worked at licensed daycare centers for five years. I went to school for child care and human services. I have also taken early child development classes. I've been a nanny for a few different families for six years. I have experience with multiple children and children of all ages. I was a nanny for triplets. I also have experience working at Mansfield Place, an Assisted Living Center for the Elderly. I have experience with diabetics and administering medicine. I am confident that I can work with children with special needs. I am very good at staying calm in stressful situations - that is definitely one of my better strengths. I am a creative, energetic person and love working with children. I enjoy doing art projects and love being outside. I like to go for a lot of walks and explore. I love to sing and enjoy reading to the children I care for. I believe in playing and interacting with children helps their development and helps create a special bond. I have a 100% clean driving record with my own car. I don't mind pets. If you are interested in finding out more, email me or give me a call. Thank.
