Finding affordable housing in Burlington is ROUGH. Wouldn't it be better to do it together? I'm seeking someone or multiple someones to look for rental properties in Burlington. Ideally, we'd pay no more than \$600 apiece per month before utilities (can be flexible within reason). Would prefer walking distance to UVM, but as long as it's near a bus stop, that's negotiable.

A little about me: 30, male, work at UVM College of Arts and Sciences. I love camping, theatre, Netflix, board games, summer, sleeping, food, and my dog. She is a labradoodle, almost two years old, and loves absolutely everything except for the vacuum cleaner. If you have dog-friendly dogs, perfect, or if you have a cat that is very tolerant of dogs, also great. She thinks every creature was put on this earth to play with her, and I have never seen her be aggressive, except in her love. I enjoy a peaceful living space--one or two overnight guests and small get togethers are great, wild parties are not.

Any gender identity please apply. LGBT friendly a must, 420 friendly a plus. Shoot me an email and tell me a little bit about yourself, then let's meet for coffee or a drink and see if we.
