Did you recently purchase a new CPN, SCN for credit repair?

DO NOT rely on ssnvalidator.com!!! It is a great free novelty tool, but has been inaccurate and out of date since June 2011! Plus, it cannot give you real-time updates or tell you if someone is connected to the number or not!

Want a real-time, up-to-date background report on your new or existing CPN or SCN? We can provide a report on your CPN! We possess the software IN-HOUSE to scan the background of your number with the credit bureaus to see if anyone else is using it!

Great price! \$19.99. Results delivered within 15
