Anyway, if you find your new Ikea flat pack furniture is still to big for the trunk of your car, or maybe you went out to buy a 40" TV but got a 60" and now can't get it home, or you find a free upright piano on the side of the road but have no way to move it... You need a truck. I have a truck. I wouldn't say I'm unemployed, or under-employed, but I am bored and can usually walk away from this job at a moments notice. So email me if you are in the valley and need a truck. I won't barely charge you are.
