Need a sitter and Leary of having stranger in your home? Let me watch your pet in my home. Home has heated doggy room that lets out to large fenced area. (6ft chain length). i work part time so they would only be alone till early afternoon. Pet welcome inside and cozy areas provided. We have one cat and a little girl so dog must be friendly w a cat and child. Usually, I just watch one at a time. Not like I do this for a business. I just have the perfect house for a pet's safety and care. \$15 a day. Better than a kennel or vets office. Lots of TLC and sincere understanding of how they are like part of the family. Thank.
