I need about 10 more guys like the one I have now who can make calls to local businesses with ugly websites to sell a website upgrades. There are thousands of ugly sites that need help and my current sales guy closes out 4 sites a week.

If you are the type to wait for people to call you back just skip this.

I need people who are hungry and are looking to put money in their pocket. People who will already have an email, text, fb message, or some sort of reach out to a potential client before I even finish telling you about the job details.

Easy money if you know a little about the process. I am paying out \$100 for every \$500 sold. Websites start at \$500 and can go up to \$20k and more. If you can sell it I will make it happen.

Shoot me a text. Just a guy trying to build a team and we are already making real money

part time, full time, 10 min a day. as long as you send me someone who is buying you get paid

Ken
