Hello! I am a 20 yr old male looking to find a room to rent or a roommate to find an apartment with. I recently moved back to the area to find a job and am currently employed in springdale, but am living with family at the moment and am in need of a more permanent living situation. I am clean, respectful, lgbt friendly and 420 friendly, and tend to keep mostly to myself but am completely okay with social gatherings. looking to find either a room available in a house/apt or a roommate looking to move into a two-bedroom together, but in any case hoping to find an affordable situation. I am a smoker, but smoke outside, so you should be okay with doing the same if you also smoke. I do not have any pets, but am completely okay with pets provided I'm not responsible for paying any pet-related fees or waivers on your behalf. I have a steady job, I've never had complaints from a roommate/neighbor, and I have references available. would prefer if you do as well. male roommates preferred, orientation irrelevant but would like to know if/how often you would be having overnight guests. if interested, please feel free to contact me at your convenience either by email or by text/call. !
