Meet a new network of New England's bio entrepreneurs from business, academic, finance, scientific and medical communities. Our forum consists of discussions on emerging research and the commercialization and development of new technologies encompassing biotech, nanotech, pharmaceuticals, medical devices, environmental technology, information technology, healthcare, mhealth & mobile apps, cell biology, life science research, pharmaceuticals, and drug discovery start-ups.

It was designed for multi-disciplinary entrepreneurs and researchers to commercialize science and technology for Health and Medicine and for those interested in building, sustaining and investing in a thriving New England biotech cluster through innovation, collaboration and networking.

Network with like-minded founders, industry experts, angel and venture capital investors, and successful entrepreneurs.
