

Study on the Teen Brain (Belmont, MA)

Location **Massachusetts**
<https://www.genclassifieds.com/x-650749-z>

We're inviting healthy teen girls ages 12-14 and their mothers to participate in our study of how the brain changes during adolescence.

Teens can earn up to \$295, and mothers can earn up to \$100.

In this study at McLean Hospital, teens and their mothers answer questions about thoughts and feelings, and teens undergo an fMRI brain scan and an EEG. Parent permission is required.

For more information, please contact Angela in the Child & Adolescent Mood Disorders Lab: or .
