

VIDEO: Dude saying hello to his visitors!
<http://youtu.be/3f6TR2aXxXk>

Dude enjoys hanging out in the sun chewing a marrow bone on lazy summer days. He is very smart and likes his treat puzzles & toys. Dude might be a little too much dog for a young tot due to his size & exuberance. He would like a family who will spend time with him and maybe even take him to obedience class so he can show off how smart he really is!

He is UTD on shots and is neutered. He is going to make an awesome addition to the right family.
