

Seeking Executive Film Producer (New Orleans)

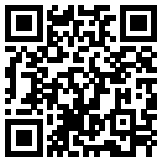

Location **Louisiana**
<https://www.genclassifieds.com/x-651672-z>

I am a film industry professional with several years invested and family ties to the business.
I have access to all the equipment needed to produce a feature film from beginning to end.
With my contacts I can get everything needed for this film at a drastically reduced rental fee.
We need someone serious about investing ten thousand dollars for the first week of production.
For the ten thousand dollars I am offering a negotiable 10% of the rights to the movie.
Additional money will be needed for production, marketing and film festivals.
This is a great opportunity for someone interested in doing something fun and creative to make a profit off of there investment.
With my experience and contacts all we need is someone to bring some money to the table and all of these great resources at my fingertips can be utilized to make a great film.
Serious inquiry only please!!!
