i have at least 10 never used maybe more ,,
 HT24 Lock Options

Onity offers a wide selection of attractive finishes, interchangeable handle styles, and latch mechanisms.

All-Weather Lock: Whatever The Weather

The Onity All-Weather Lock was designed to withstand extreme environmental conditions and is compatible with any of the Onity Electronic Locking Systems. Resistant to the humidity and salinity of coastal environments, as well as sand, dust, heat, cold, rain and snow, this specially designed lock incorporates a unique finish and can operate in a full range of temperatures. Onity All-Weather Locks are designed to meet the challenge of any environment, no matter how hot, cold, or wet it gets.

Auto Deadbolt: Automatic Protection

Unlike regular mortise locks, Onity's Auto Deadbolt automatically extends a 1-inch/25.4mm deadbolt into the door frame when the door is closed. This feature operates with all Onity e-locks and can be easily added to existing locks. UL approved for fire doors, this lock includes an internal fusible link. Give an extra layer of protection they don't have to think about.
