is a 1995 Chevy v6 Automatic 4WD. Runs drives good reliable always starts no issues. 189k miles. Strong engine and transmission shifts all gears perfect, the 4x4 works front wheels engaged like it's supposed to. Tool box, Clean Texas title in hand ready for new owner. Nice aftermarket seat. For the bad there's some dents and scratches here and there, brake lights aren't coming on... Pioneer CD player there but it isn't hooked up. Is a reliable truck that can drive every days if wanted to, is pretty comfortable but it would also make a good hunting or off road truck. Text only please thank you
