This is the Prius of Homes. It is an Energy Efficient home for the ECO minded. ADA Accessible. Built with the future in mind. Some of the many energy efficient and sustainable items include, Solar (Photovoltaic) system, Sun Tunnels, Hydronic Heating, LED lighting throughout, Marvin Ultrex Fiberglass Windows. Look out on to the prairie and enjoy unobstructed views of the 35 accessible acres beyond. This home also has a Safe room built to F.E.M.A. standards. Room can double as a cold storage room. Photovoltaic system can be expanded. Home could be Zero Energy.

If you are Energy Conscious and concerned about conserving energy this home is built for you. In case of a rare power outage, you have a freestanding woodstove with a cooking surface. This would be in addition to your photovoltaic electricity. Floor is radiant heating. G.E. Geospring waterheater has several modes. It takes moisture in the air and converts it to heat (acting as a dehumidifier in the summer); and combination mode includes geothermal and electric usage; then a High demand mode which is electric only; and a vacation mode. Come and take a look at this unique New home built for the Future. Not many homes can boast all of these energy efficient, sustainably minded features.
