and, they were all available to members of the Waterford Society during the year
 a fine, hand-crafted sparkling glass and cut crystal. They have a mark great
 tag piece - etched with the Waterford Society mark on the base.

The majority of the pieces have been hand signed in my presents by a Waterford designer visiting the
 U.S. during the year each piece was issued.

 If you were a member of the Waterford Society then you know these pieces were only offered to Society
 members who received a written reservation form to be signed and returned within 30 days for each
 handcrafted piece they wished to purchase. The reservations for numbered pieces were limited to
 members calling in by phone on a first-come, first-served basis. Usually the day a member received the reservation in

the mail. Reservations were never offered to the public. These pieces were made at the old factory in Ireland, which is now closed !

House of Waterford Crystal Established:

The company of Waterford was first established in 1783 on land adjacent to Merchants' Quay in the heart of the Irish harbor town of Waterford, just minutes from the present day House of Waterford Crystal. Its founders were brothers, William and George Penrose, important developers and principal exporters in the city. Their vision was to "create the finest quality crystal for drinking vessels and objects of beauty for the home." More than two hundred years later, the reputation they established for creating glass of unsurpassed beauty and quality has transcended the intervening centuries.
