My son bought this camera and carrying case out of his own money at a flea market and was learning to use light, exposure time, film sensitivity and all that to make pictures the old fashioned way. He and his brothers were staying on Bourbon Street to have a special vacation experience and he asked me to carry it home for him and I was happy and proud to. I, knuckle head, almost missed the Jackson Street stop on bus number 11 on Magazine Street, bolted out and left it behind. Please help us get it, and especially the pictures,.
