Hi, i'm a 28 year old bass player looking to start or join an original band. I'm not into Deathcore or metal or non of that seen at all. I'm also not into country. My influences include Sublime, Guns n Roses, the clash, the descendents, the ramones to name a some. I'm eager to get into a band and give it my all. I just want to collaborate with other musicians and get a band going that is serious and has a vision. I'm not willing to take my time or settle, I want to become something,i want to do something different and create a following and just rock. text or call
