I have a 7 year old neutered male german shephard. He is an amazing dog, very well trained!! We adopted him over a year ago and love him very much, but we are moving and cannot take him (hes too big and on their list of dogs not allowed)
 He is addicted to balls and loves attentuon very protective of ones he loves, i would only want him to be an only dog and NO small children he can be cranky over the sharing of his ball . There is a rehoming fee and must have time to walk and play with him
