For a quick quote and turnaround, send due date, page/word count, format and class/course/major and the topic/thesis of the assignment.

References (current and going back four years) and samples (already scanned) furnished. No money up-front is required. Instead, I finish the work and send you first, middle, and last pages/paragraphs for approval and then send complete product when Pay Pal or Western Union confirmation comes to me. I send a first section, introduction, or thesis statement for approval by you before I begin writing in earnest. It a good system and generally the only edits I am asked to do after is to reduce the language from a grad level down a bit to undergraduate writing.

I enjoy my work and I'm over fifty and expect my clients to be vested and cooperative. As well, I do not quote much at all but cite not only everything I paraphrase but also anything that I add from my own knowledge. My rates run from \$15 to \$20 (graduate level) depending on the requirements for APA and MLA formats (275-300 words/double-spaced/12 font).
