Mobile Auto Mechanic (BiddSacoOOB)

Location **Maine** https://www.genclassifieds.com/x-654481-z

20+ years experience in Automotive Repairs. Free diagnostics for the first hour if I repair your vehicle. If I do diagnostic work for you and you elect to hire a different mechanic you will be billed for my diagnostic time. Specializing but not limited to, General Motors and Ford. Not taking on any body work, transmission work (except service maintenance)or exhaust work at this time. I charge \$30.00 an hour which is more than fair for a mechanic so please agree to my fee prior to calling. I also do some road calls if you happen to be broke down off the side of the road. Some jobs I charge by the job instead of the hour so call/e-mail me with your automotive needs and we'll take it from there!

No Texts Please ***Serving Greater Biddeford, Saco and Old Orchard Beach Area(s)***

Recently upgraded my scan tool. Call with your engine/ABS/airbag lights and I can diagnose the issue(s)

*Special thanks to all my customers new and returning for a great start to my 4th year in!
