

Lovely Ladies Housecleaning amp Rent A Wife Services (North Shore)

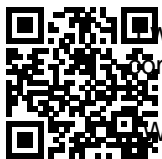

Location **Massachusetts**
<https://www.genclassifieds.com/x-654544-z>

We are two blonde women, we are sister in laws (well by common law, not technically), one young and strong (24), the other strong and wise (45), between us there is a veritable wealth of information, knowledge, skills, and experience in all manner of housekeeping duties, raising children, shopping, organization of the home and or office, creating a family or individual budget and shaping up finances, laundry, interior decorating and my hobby furniture refab to turn your old junk into something wonderful and unique, yardwork-landscape-gardening with above average horticultural and botanical knowledge, errands, shopping, cooking and preparing meals for an individual or family (for any event or occassion as well), handyman work from painting to household repairs, mold removal, pest removal, rug steamcleaning, floor replacement, hardwood floor refinishing, homeschooling, curriculum writing, document creation (your resume, your curriculum vitae, any type of legal, academic, business, or personal improvement document you can imagine I can make it!), and the domestic and skilled labor list goes on and on.

We have exceptionally low rates, show us another similar service for the same job that is cheaper than ours and we will match it!!!! AND provide you with a FREE homemade, HANDmade (by yours truly), all natural, organic, botanical based health, home, or beauty product from my current business venture (my dream of making and selling a wide range of beneficial all natural botanical cosmetics, healthcare items, wellbeing tonics and tinctures, animal products, child and even infant products, household cleaning products, even my patent pending perfect recipe for toothpaste that is all natural and will remineralize, replace enamel, restrengthen, whiten, protect, and even REVERSE tooth decay!

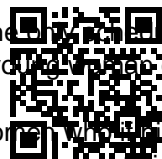

As you may see I have great dreams, but in reality I am without even a place to call my own at this time (not for lack of trying). and my first priority is to get enough money for and actually FIND and BE ALLOWED to rent an apartment for myself and my family. Not long ago I lost EVERYTHING. House, cars, wealth, family, my only child, my valuables, my belongings, and now more recently my health, which has taken a turn for the worst with a very active systemic chronic auto immune disease which has almost completed taking away my beauty as well, and if I don't stop it and get the prescriptions, the products and clean stress-free environment, nutrition, and rest that I so desperately need it may be that the damage will become irreversable, leave me not the radiant, stunningly beautiful, intelligent and motivated youth that I used to be, but rather the pain riddled, anxious. despaired, broke, ugly and aged woman I am becoming from this illness.

We work for ourselves. It is the only rule I can give you, and I assure you the job will be the less thorough type of house, garden, or any other kind of the usual comparison with another young woman of good means.

We are two successful women who lived with good society not only in the above mentioned in any of our service employment, but also in the something more. In your home and heart, we are known to impact the people we meet (in a good way of course!).

I also offer Complementary, Alternative, Medicine private in home services as well as education of these arts, particularly, herbalism and herbal medicine use for chronic or acute diseases, prevention, common afflictions, everyday first aid, psychological ailments and balancing stress, relieving anxiety and depression, balancing the body's electrolytes, vitamins and minerals, pH, as well as cleansing the body and its systems of heavy metals, toxins, free radicals, viruses, bad bacteria, fungi, protozoa, drug residue, and parasites, to ensure optimum health and wellbeing. I take a very mind-body integrative approach to ensure my friends who I assess and make suggestions to end up being completely healthy in every way. Just like a wife should do for her husband and family!

Whatever the job, big or small, common or odd, easy or hard... We can do it better than any man can! So call us now, and be sure to leave a message as I am not able to always answer the phone because it is broken so I often must retrieve my messages from another phone. So please clearly state your

Name

Phone Number to best contact you at

Location of the job

Description of what you would like done and remember that can be anything don't be shy but please do be kind, my very life and it's quality depends upon the income that I hope to make through this.

Your email address if you wish to correspond via email.

The day or days you are available or want the service(s) started,

As well as a ballpark price range of what you think would be fair and honest pay for the work to be done (tips not included in price), and also if it is an estimated total cost job, or something hourly pay like raking leaves, painting (classic painting nothing fancy), light cleaning, etc.

I am also open to any job opportunities or charitable acts or donations, or suggestions for apartments in the area.
