It is with a heavy heart that I must give my pup a new home. She needs someone that can give her a home with a lot of property to run or a home that will train her to do the things she would be so great at doing. She is half German Wirehair and half Border Collie; she was born in January 2015.

She is great with kids, other dogs and loves to annoy cats.

If you do not know about both of these breeds, you will need to do your research.

I love her and I hate that she has to go but it isn't fair to her that she doesn't get to do all of the great things she was born to do.

She will kennel and she knows basic commands.

I am asking \$50. She will come with her.
