

iOSAndroid Developer Needed (Picayune, MS)

Location **Louisiana**
<https://www.genclassifieds.com/x-654673-z>

I am in need of someone who can help me develop and iOS/Android base game. Must have previous experience and be able to show past applications that you've worked on. Design experience not need - I have a Graphics Designer already lined up.

NDA will be signed before work begins.

This opportunity can potential lead to a full time position once the app takes off. You will be paid for work done - and work that is needed to be done.

This will be work done from your home or office.

Serious inquiries.
