I have 3 cats that I need to find a loving home for. Two males ages 3 years old and 11 months....both are black and white and fixed...female is 1 year old and all black...also fixed....all are litter box trained and very loving and playful....definitely lap cats....the two younger ones can be very timid at first but once they get use to you will not leave your side. I need to find them a home asap....I have to move and can not take them with
