

More in about that same school district (Jefferson)

Location Missouri https://www.genclassifieds.com/x-654841-z

The principal at the high school hates people violates rules and parks in the handicap place, got the police called to her home for attacking her husband in Barnhart and is mean to everyone. This is her sixth school district and she only cares about her own agenda. She is cruel to people that don't kiss her behind. Again, as has been said before no administrative role models at this district. Also, the superintendent is the fourth choice, wouldn't you think if they had to stoop that low they would have reopened the search, but not with that lazy good for nothing school board. People you pay taxes, wake up do something about what is going on.
