He is 6. I have had him since he was a puppy. A mutt mix between black Labrador Retriever and German Shepherd. He likes to hunt and run. He needs a place where he can run every day. He is great with people and children. A family environment would be ideal. But other animals he needs some work. He loves to ride in the bed of a truck and follow tractors. He is up to date on shots and neutered. I love him but I am not home to continue to train him. I need him to go to a great home as soon as possible. Call or text me for more.
