

Video Post amp Effects (Las vegas)

Location **Nevada**
<https://www.genclassifieds.com/x-655045-z>

Las Vegas based creative company is looking for a Video Post & SFX specialist with expertise in Premiere, After Effects, Photoshop and Audition. This person will be working with supplied B-Roll to create a series of 30 second product videos for web display and a few tutorials as well. Ideally, candidates should have their own MAC and production software but will be required to work on site from time to time as well. This gig is all about post-production but a working knowledge of video production is also essential as there will be some limited field production. You will be required to shoot products in a green screen studio with a Canon 5D DSLR then apply a chroma-key effect in post. Speed and attention to detail are qualities essential for success on this assignment. Flat fee paid for each finished program and once the basic formula is created, each presentation will be identical in format. We anticipate over 100 videos will be created within a two week time frame.

After Effects work will involve the creation of animated logos, traveling mattes, stock effects from VideoHive Templates and layered graphics. We love creative people and your input is vital.

Knowledge of 3D EFX such as 3D Studio Max is not required but definitely a plus. Knowledge of HTML-5, Dreamweaver, Flash also considered valuable. You will be working with encoding software for outputting in multiple formats so knowledge of Compressor, Sorenson and other format and Codec converters is essential.

Please send a resume that lists the assignments you've had in the past and your role in each. We also would like to see some finished programs so send us a link to your cloud server. If you have no experience or limited experience with video post, no need to apply. This gig will begin.
