I have a 1997 Jeep Cherokee 4x4 for sale. I just drove it 10,000 miles across the continental United States. I know it is reliable as a rock. It has a 4.0 liter 6 cylinder engine and an ax-15 manual transmission. Nothing wrong at all with this Jeep. It does have 210000 miles on it, but it runs awesome. I would drive it another 10,000 miles and not even think about it. AC works great, cruise works great. It has manual locks and crank windows. It has roof mounted spot lights which were awesome in Sequoia National Forest. Also lifted 3 inches. It is a 97 so it has rust, but floors are and sub frame are solid. Any other questions please call or text.
