

Cord wood, dry maple (280. USD)

Location **New Hampshire**
<https://www.genclassifieds.com/x-675382-z>

Selling 1 possibly 2 cords of DRY maple. Split and stacked for your inspection. Trees were cut down, split and stacked since Feb. 2014. This is not seasoned wood, but DRY wood. There is a difference. Season wood means it was cut and split within this year. My hardwood is over 19 months old, therefore DRY and ready to burn in 16"-18" pieces. You must pick up in Goffstown and there is easy access. Send me a phone number and I'll call you to discuss when you want to pick up.
