

Free Lead Service For Contractors (raleigh nc)

Location

North Carolina

<https://www.genclassifieds.com/x-675482-z>

We are a nation wide lead generation service that works in real time. We have leads for just about any category of contracting or skilled services you can think of. Unlike the other companies out there we don't try and charge you up front before you even get the chance to speak to a real customer. Here is how we work. We only ask that you pay a \$5 activation fee up front, there are no monthly fees and no contracts or cancellation fees with us. Once your activated when customers in your chosen area use our app or website to request your type of services the leads will hit your phone in real time. The lead info is always free. With the lead info you get all the details of the job, the customers zip code location, the day they'd like to meet, and what their budget/price range is. When you read the text if you don't want the job just ignore the text or press #9 on your phone to decline. If you like the way things look then all you do is press #5 and you'll be directly connected to the customer and from there you can talk and get something set up. The only time your charged for the conversation is if you and the customer want to meet and end up exchanging contact info. If you talk to a customer and couldn't get their contact info then you are not charged. For conversations that you get the contact info on will only cost \$13-\$25 depending on what category it was for. Once you get the customers contact the lead is automatically removed from the database so no other contractor can have that contact but you, so that will be your exclusive lead from that point. If your interested or have any questions please email me back with your name and contact number and also what type of leads your looking for. Thank.
