I have over 15 yrs experience in the construction/remodel business.I have been sub contracted by many "remodel companies" and I am currently looking for work on my own.Most companies I have worked for either go out of business or end up not paying me after work is completed!! have a family to support so you can count on a job well done in hopes of repeat work and references.I am very skilled in all flooring types,painting,cabinets,drywall,plumbing,fixtures(hanging/replacement),masonry.I can keep you under budget and will go the extra mile to get the Finnish you are.
