

Loveable Pug looking for a new home (West Fargo)

We have two pugs one of which we rescued last year. We love the 3 year old dearly but she would be better off in a home where she could be one true queen of the castle. She likes people more than other dogs and would do good in a home where she's the only pet. A total lap dog who demands your love and cuddles. If this faun prima-donna pug seems like she would be a good fit to your home, drop us a few paragraphs and tell us about yourself and why you'd make a good pug parent to our precious girl.
