We are shooting part of a studio video in a studio in Louisville. The second part would be shot in Norman. It would be shooting 2 or 3 passes of a Drummer on one song. The song is approximately 3:09

In the end we will take the Louisville video files and the Norman video files and send to them edited together to make the finished video.

This is only for online promotion like youtube, facebook and maybe our website. We do NOT want HiDef footage.
The file type, resolution etc will have to match the Louisville video which will be shot first on Sept 26th or 27th. The actual date in Norman is not yet known, but will son follow the Louisville session.

I would guess shooting this video would take under an hour.
