I am leaving for Vietnam in a few weeks and will be there for 3 months. I want to make a film and have several ideas in mind. I'm looking for a SERIOUS film maker\camera operator who can document the travel. I'm trying to do something different, you'd have to decide if my ideas are worth your time.

Basically, we agree to make the film and contract a 50\50 split of proceeds. We are each investing time and money, each taking equal risk....again, are my ideas good enough?

Only one way to find out, right, right,?
