

Need someone with Moving Truck to help Small Move (seattle)

Location **Washington**
<https://www.genclassifieds.com/x-675687-z>

I have a small and quick move about 5.5 miles away from my apt. The largest furniture I have is a queen size bed and bed frame. Other than that just some boxes and small storage furniture moving into the new apartment. Traveling time will probably take longer than the move itself its so small. I don't need multiple movers or to pay an expensive flat rate for a move I did myself a couple months ago. I really only need a truck and unfortunately they are all rented out everywhere. I need to move on Sunday, any time of day is fine, if you can help me I would really really appreciate it. Please let me know! Don't try to rip me off.
