

# 18 ft flatbed trailer with siderails or car dolly for rent (Loveland) (Loveland)

Location **Wyoming**  
<https://www.genclassifieds.com/x-675701-z>

18 foot Flatbed trailer with removable side rails for rent. It has new decking, a newer wiring harness, newer tires, 2 new 5000 pound axles and fresh brakes.

Great for Hauling cars, trucks or anything on wheels - running or not.  
 Move furniture, Haul trash, tree limbs, fire wood or construction material.

This is a 18 foot bumper pull trailer - not a gooseneck. Width between wheelwells is 79"  
 Requires 1/2 ton truck or larger with brake controller and 2 5/16 ball to tow. I can loan you my ball if you don't have one but you have to leave yours as a deposit.  
 If you are hauling trash to the landfill or tree limbs to the yard waste recycling center you will need at least a 12ft x 20ft tarp to cover the load.

Must have proof of insurance, a valid drivers license and cash up front.

Trailer is located just east of old town Loveland. I am pretty flexible in pickup and drop off times, I like early mornings and late in the afternoon or evenings but we can work out something that will work for us both.

Rental fees for the flatbed are \$60 a day for the first two days, the third day up is \$50 a day and if you rent it for a week or 7 days the cost is \$225. Rents are due in advance and if you damage it you fix it. I

have tie downs, chains, binders and winches you can use for a small fee.
