

1999 Subaru Legacy Outback (1900, USD)

Location **South Carolina**
<https://www.genclassifieds.com/x-675715-z>

I am selling my 1999 Subaru Legacy Outback wagon. It's green in color and has the 2.5L four cylinder motor, automatic transmission w/ All wheel drive and 156,000 miles. Some other features it has are: Air Conditioning; AM/FM/CASSETTE/CD stereo; Power Windows; Power Locks; Power mirrors; CRUISE; rear wipers; rear defrost; Power Steering; Dual Front Air Bag; Roof Rack; Fog lights; All Wheel ABS. This is a great running and driving vehicle; the motor and transmission are strong and tight; the tires are in great shape; all the power features work good as well. There are a few issues however they are minor and if someone wants to put a little money into this you would have a great car! The issues: The windshield has a large crack in it but doesn't obstruct view; the front rotor could stand to be turned or replaced there is a slight shimmy when you brake; drivers side fog light is busted; drivers side rear tail light is busted but taped over; passenger side rear window comes off track. Other than these it cranks up and runs and drives just fine and if it did not have these I most certainly would be asking more for it. If you'd like to come check it out please give me a call
