I have for sale a perfect honda rebel. When i say perfect i mean starts rides and looks brand new with only 2500 miles. Wouldnt heseitate to drive cross country on it. Tires and everything all original honda parts and in perfect condition. Bike gets about 70 miles a gallon. Bought it for my girlfriend and she wont thouch the thing. These bike hold there value well. You can ride this bike several seasons putting 10s of thousands of mile on her and still resale for what im asking price wise. Im in the tetons but go into jh regularly. Can ride the bike into town for serious buyers. If you can ride a bike and drive a 5 speed you can drive this bike no problem. Will deliver for 1\$ a mile
