So does Rudy Giuliani, Ted Cruz, Trump, even the GREAT Milwaukee County Sheriff David Clarke (a democrat) and any one else paying attention. You puked with the Blinders on who support this utter disaster are the only ones who can't see how useless and damaging this man has been, though you will, and sooner rather than later. We are Fucked at every turn, on every issue (see the latest; ie Iran deal brokered by John "rice ass' Kerry).

And there is more,
And I bet you believe Hillary is innocent and as clean as the driven snow.
See, Benghazi

Under Obama we have printed an additional \$5 trillion in new money backed by ??????????

Fewer Americans are at work today than in April 2000, even though the population since then has grown by 31 million.

Because of Obama's policies since he became President, 11,472,000 Americans have left the work force.

The number of Americans on welfare has hit record highs.

A record 20% of Americans were on food stamps in 2013.

The almost 11 million Americans getting disability payments is now approaching the population of Cuba.

Through 2013, the Obama Administration had imposed new regulations on businesses that cost 46 billion dollars a year.

He released 5 Taliban terrorists In exchange for deserter Bowe Bergdahl.

And on and on and on
