

Research Study of a Product to Reduce Symptoms of Acid Reflux (USA)

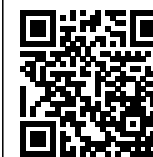

Location **Wisconsin**
<https://www.genclassifieds.com/x-675887-z>

This study will be conducted entirely via email responses.

Participants needed for a randomized placebo controlled research study using a natural preparation to reduce symptoms of acid reflux occurring during sleep. Must suffer from reflux while sleeping, be age 18 or older, and have no history of heart problems.

The study is in two phases: 1 - data collection, and 2 -- use of the natural preparation. If you qualify for phase 2 the natural preparation with instructions will be delivered by mail at no cost to you. No physical exam is required. The study has been approved by the Western Institutional Review Board (WIRB 20140996 #12008325.0).
