I am an artist and experienced photographer. I am looking for sexy mom's and pregnant women who want to model for sensual, alluring art photos. Pregnant, in shape lady (or new mom) who wants to explore and show her beauty and sexual side.

These will be alluring, sexy, nude, but artistic and creative B&W images, or art renderings (drawings, paintings).

It is My belief is that women are as attractive and sexy when they are pregnant as any other time. I want to create art that shows this. Also who says women are not as sexy after becoming moms? Not me.

If pregnant, you must be showing, but in good shape, and take care of yourself. New moms still lactating a plus. Older moms welcome. Be Comfortable with your body, and have a desire to show your beauty for the sake of erotic art.

I am an experienced photographer with portfolios.

please respond with a couple of pics showing how far along you are, and or let me know if breast feeding. also a brief letter telling me why you responded. I will not respond if you do not follow direction. Photographers get scams too.
thank.
