Hi there I am a fully set up digital marketing agency in search of a certain kind of person preferably a guy who is very good and passionate about selling and marketing. We have a very powerful service to provide small businesses and there is a lot of money to be made in this industry. One guy I know is bringing in 50 thousand dollars a month working from home probably no more than 30 hours per week. I'd be more than content making 3 thousand. As you can see there's really no limit to what we can do if we take massive action. The best part is that we are helping local businesses win the game of internet marketing to grow their sales so you can take pride in what you are doing to make a living. Come help me land some clients and I will pay you very well both one time payments as well as monthly residuals. If this resonates with you then give me a ring at

I look forward to connecting with the right people, have an excellent!
