

---

! Achieve Success has earned the Florida Department of Education's EXCELLENT tutoring provider rating from the State of Florida. This is the highest rating a tutoring company can earn.

This is a key distinction that officially recognizes our track record of high quality services. Out of Florida's tutoring providers this year, only around 20% have this highest distinction. This rating is based on:

- Student mastery of learning goals
- Completion of tutoring hours for each child
- Parent Satisfaction
- School district evaluation of each provider
- School principal evaluations (if tutoring is done in the school)

We have started to pick up many districts in Southern California and are just now starting out in Northern California. You are a key player in helping us take Northern California by storm!
