1 year old company (making \$15 million in sales in its first) is looking for new individuals interested in becoming independent warranty specialists. Choose whether to be independent or build a business within the company.

Compensation is daily (instantly) and monthly(residual) regardless of independent or building a business. For monthly example: Just imagine getting \$3 per person who pays their Netflix or Hulu bill, pretty hefty monthly income you would make since there are over a million users for both.

Partnered with National Motor Club, AIG, United Health Care, Matrix Inspired, and Teladoc with more partnerships on the way.

If interested, please send a text to saying "im interested" and a good time to call. I will send a text back to confirm the time with you. If you have a computer please have it present but if you don't own one it's alright.

I am personally a representative of this company doing this independently and building a business. My name is Sam by the way; Facebook can be given upon.
