 Otherwise the price starts @ \$55.

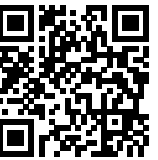

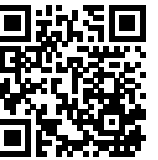

Yes, you can have straight hair without the use of harsh chemicals or having your hair damaged with high heat from pressing combs & Dominican or Brazilian Blowouts.

Silk Press is a temporary way of straightening your naturally kinky, curly, or wavy hair. No chemicals, oil, grease, or pressing comb is used. Your hair will be lightweight and full of body and bounce because it's not weighed down with a bunch of oil, wax, or grease. The best part is that your hair will return to its original state when shampooed so you don't have to worry about heat damage.

I am available to provide this service and to teach my signature, silk press method to licensed cosmetologists and hairstylists.

Silk press service NORMALLY starts at \$55 (add \$25 for a basic haircut). May be slightly higher for individuals with excessively long or thick hair. (Additional conditioning treatments are available for \$20.

If you are a licensed cosmetologist or hairstylist and want to learn my signature silk press method, I am available to teach you how to properly perform this service. It can be done as a look and learn (\$85) or as a hands on class (\$125).
