

Someone to work on a gas Power Washer (Springdale)

Location **Arkansas**
<https://www.genclassifieds.com/x-676249-z>

I've got a honda/karcher gas power washer. Nothing really wrong with the engine, but the pump went out on it. I purchased the right pump and have received in. I'm partially removed the old pump. But it will not turn loose from the drive shaft and all the bolts are removed.

I've read that it's probably corroded on the shaft. Anyone have the equipment/shop, etc. that knows power washers that can get the old pump off ?
