I am looking for a remodeler/carpenter/painter to work on our small house. Some of the things I need to get done are - replace or paint our kitchen cabinets and countertops, paint our bathroom cabinets and countertops, replace or repair a small area of flooring in the foyer and powder room, and add some professional touches in general to improve the overall appeal of our home.

What I can offer in return is free professional photography for your business or personal use / free edited video advertisement / free website design services.

Email me if you or someone you know might!
