

Creating a Filmmaking Team, filmmakers amp actors working together (Aurora)

Location **Colorado**
<https://www.genclassifieds.com/x-676261-z>

Greetings fellow actorial hearts, minds and souls!

I'm a fellow actor with improvisational skills, decent filming & editing skills, some scene writing skills, songwriting skills musical- guitar, piano skills... and I'm seeking some like minded actors/actresses to work with on shorts. Comedy, Drama to Romance dramedy, mocumentary... to start with.

We could brainstorm some ideas, shoot a scene at a park or at the Southglenn or Smokey hill library. I would be doing the editing; if you edit as well, then we could both edit.

Shot a bit like a documentary...keeping it simple, allowing our skills to shine.

** No Pay..though..
 Great if you are wanting to add something different to your demo reel and for a fun & different experience..allowing an opportunity to work with some other fellow acting talent.

I'd like to go from shooting short films & scenes, to finding other people to order the production of a few pieces of film in a professional setting/along with a budget of 3 to 5k. I'm looking for people who enjoy working together on short films. I've sketched out perhaps a few ideas at some point.

If we all, or most of us have skills and some basic equipment to bring to the table, our passions, talents, good PC or Mac and editing software boom mic, decent camera, basic lighting.. as we could try to shoot with natural light during summer as much as possible, taking turns, keeping crew down to those involved or those willing to help out.

Email me for more info.
