Vintage Denon Receiver (DRA-325R) & CD Player (DCD-620) for Parts

I purchased these Denon components in 1989 from Al Franklin World in the Hartford Civic Center. I retired them about 5 years ago when the CD player only worked sporadically.

I'm now trying to get rid of things I will never use. I tried testing them but I couldn't get either to work. The receiver did light up but I couldn't pick up any station. I didn't try very hard and was in the basement so maybe it works maybe it doesn't. Assume they don't.

Original owner's manual, remotes and antennae are included.

Located in Suffield, CT.
