

Looking for Unconventional model.

Location **California**
<https://www.genclassifieds.com/x-676401-z>

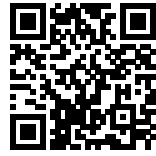

Heads up, it gets weird from now on...

I'm looking for subjects with interesting looks (e.g. dyed hair, tattooed skin, piercings, freckles etc.) or that are open to work with me on some interesting concepts and mods. I'm working on adding some unconventionalism to my portfolio.

I'm interested in the work of photographers like David Uzochukwu and Kyle Thompson. I've attached images of ideas I find interesting so you get an idea of where I would aim to.

If we meet, I would of course work around your schedule and would only explore concepts that you feel comfortable but I would ideally find someone who would be open to meeting as early as 6 or 7 am. Just because California only has "that cloudy" feeling that early.

Thank!
